Profile

Civil Engineering graduate eager to pivot into the tech industry. Aiming to blend analytical skills from engineering with HTML, CSS, JavaScript, and React proficiency to craft innovative solutions and contribute to the dynamic world of technology.

Key Skills

- HTML
- CSS
- JavaScript
- React
- API's
- GitHub
- Bootstrap
- Node
- Microsoft Office
- Problem Solving

Education & Qualifications

Pivot2Tech *Web Development bootcamp*

Dec 2022 - March 2023

London South Bank University *Civil Engineering (2.1)*

Sept 2019 - June 2022

Projects

Project: NBA Player Stats app

- Developed a dynamic NBA Player Stats App using React, incorporating HTML, CSS, and JavaScript, showcasing my proficiency in front-end technologies and user interface design.
- Leveraged real-time data APIs to provide users with up-to-date statistics for NBA players' current season performance, demonstrating my ability to integrate external data sources into applications.
- A goal of improvement in the near future would be to implement a feature that allows you to adjust the year as it currently only includes the 2022/23 season.

Project: Weather app

- Created an intuitive Weather App using React, utilizing HTML, CSS, and JavaScript to design a user-friendly interface that provides real-time weather updates for any city.
- Integrated weather data APIs to source accurate and current weather information, showcasing my ability to incorporate external data into applications and present it in a user-friendly format.
- Goal of improvement is to implement a location-based feature that allows it to default to the weather of the user's current city if they allow their location.

Experience

Pivot2Tech, *Web Development Immersive*

Dec 2022 – Mar 2023

- Enrolled in the Pivot2Tech bootcamp to transition into the tech industry, gaining practical skills in HTML, CSS, JavaScript, and React.
- Progressed through a 12-week curriculum, mastering foundational HTML/CSS, and advancing to advanced concepts like React and REST APIs.
- Complemented bootcamp learning with online resources like Udemy, deepening understanding for a more comprehensive skill set, including the ability to find and acquire new skills.

Amazon, *Delivery Driver*

May 2021 - Present

- Demonstrated exceptional time management skills, consistently meeting delivery deadlines, and optimizing routes for efficient deliveries. Utilized real-time traffic data and GPS tools to ensure on-time deliveries and reduced transit times.
- Provided excellent customer service, ensuring positive interactions with customers during deliveries, resulting in high customer satisfaction. Communicated clearly and professionally, addressing enquiries, and providing customers with information about their deliveries.
- Maintained a clean driving record and upheld safety standards, ensuring the safe and prompt delivery of goods. Practiced defensive driving techniques, followed safety guidelines, and contributed to accident-free delivery operations.

Chelsea Football Club, *Safety Steward*

Aug 2017 - Jan 2022

- Engaged consistently with customers as a safety steward, ensuring security, safety, and exceptional customer service for a sector of 13,000 visitors within a 40,000-size stadium.
- Maintained an approachable demeanour in this role, fostering an environment where people felt comfortable approaching with concerns and questions, contributing to the overall calm and positive atmosphere.
- Effective communication and teamwork were evident through collaboration with colleagues on crowd control. Proactive leadership helped anticipate congestion and potential issues, allowing to guide the team effectively and resulting in a remarkable 50% reduction in escalations.

Interests

Interests:

- Actively engaging in a variety of online courses and resources to continually enhance my knowledge and skillset, ensuring I am up to date with the latest advancements and trends within the industry.
- Finding balance and fostering teamwork through my enjoyment of playing and watching football and basketball. These sports not only serve as recreational activities but also provide valuable insights into the dynamics of teamwork, strategy, and coordination.
